## Biographical/Historical note

---

The Committee on Appropriations was created in 1865. The Constitution of the United States specifies that "All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments as on other bills." The earliest appropriations bills were written by select committees on instruction from the Committee of the Whole House, and later ones by the standing Committee on Ways and Means. Increased demands for revenue and appropriations as a result of the Civil War combined to produce a tremendous workload for the Ways and Means Committee. Today, the committee is tasked with the appropriation of revenue for the support of the Government; rescissions of appropriations contained in appropriation Acts; transfers of unexpended balances; and bills and joint resolutions reported by other committees that provide new entitlement authority as defined in the Congressional Budget Act of 1974.
